

NAMES OMITTED FROM SATURDAY'S SCHOOL REPORT

By an oversight, the result of the copy being written on both sides of the sheet, which goes to make such occurrences frequent, when such conditions obtain, the following names were omitted from the school report, which appeared in Saturday evening's issue of the Bonanza:

High School.

Miriam Egan, Ruth Hayden, Nellie Johnson, Mary Shull, Dorothy Tregloan, Freda Daoust, Mildred Kimball, Edna Shields, Erma Wardle, Edith Fottler, Mildred Hooper, Katie McDonald, Zetta Smith, Jas. Butler, Margaret Harvey, James Kealey, Isabella Slavin.

Eighth Grade.

Lena Bohm, Charles Gilbert, Etta Franks, Gordon Hussey, Fannie Holmes, Dora Joyner, Addie Murphy, Mabel Quick, Jay Smith, Madeline Wilson, Myrtle Franks, Josephine Butler, Myrtle Franks, John Harrington, Marguerite Hallahan, Bernard Harvey, May Jewett, Marjorie Macey, Gertrude Rippingham, Fred Swin, Loretta Walsh, Jamie Logan.

Seventh Grade.

Raymond Blacklock, Edward Green, Dorothy Harris, Helen Kinsella, Ella Perry, Clyde Williams, Mildred Fottler, Albert Gilbert, May Kimball, Otto McCallum, Bernice Pengelly, Lavina Shields, Helen Slavin, teacher.

Sixth Grade.

Jack Kelley, Loretta Pohl.

TWO CANINE PRODIGES CAUSE OF GOOD STORY

Two suburbanites were swapping stories of country life as they went home in the 5:35 o'clock train.

"I have a most intelligent dog," said one man. "I just hand him a letter and say, 'There, Sport! and off he goes to the postoffice. I gave him one yesterday and he dropped it. He refused to pick it up, but wagged his tail instead. I suspected something wrong and I picked up the letter and weighed it. It required a half penny more postage."

Without the least show of surprise the other man proceeded with his story.

"Dogs are intelligent," he began. "My collie, Carlo, always posts my letters, and one day he, like your dog, dropped a letter on the floor. I thought possibly one stamp was not enough, but on weighing the letter I found that the postage was right. I gave it back to Carlo, but he left it fall again to the floor. I inspected the letter carefully and found that it was addressed to Leicester Square, Sheffield, instead of London."—Tit-Bits.

CORNERSTONE LAYING.

The laying of the corner stone of the new court house will take place tomorrow afternoon. The ceremonies will be performed by the Masonic grand lodge of Nevada. In the evening Hope lodge, of this place, will give a banquet in the Rink hall to the visitors, and it is going to be a swell affair, being arranged by the Ladies' Aid society of Yerington.

BULLION BARS SHIPPED FROM THE NEVADA WONDER

TWENTY-ONE PIECES OF GOLD AND SILVER MELTED AND MADE INTO MONEY.

Things at the mill are moving along just as nice and smooth as one could wish. The general appearance of things is that of order and regularity, says the Wonder News.

The real business end of the concern, the clean-up room, is apparently the busiest department on the hillside. Mr. Locey, who has charge of the refinery, seems to have about all one man can attend to, taking the precipitate from the zinc boxes, drying it out, melting it down and casting it into bars. At first some difficulty was encountered in getting good combustion of the fuel oil used for heating the furnaces, but a little regulating and some changes in the burners overcame this, and now when the fire is turned on full blast, one is inclined to think of the future state of the wicked. In fact, it gets so hot in this miniature inferno that it is necessary to have some articles of clothing made from asbestos.

The first shipment of bullion, amounting to twenty-one bars, weighing about eighty pounds each, or between 1600 and 1700 pounds for the lot, has been made. The value of this first shipment has not been made public, but those in charge of the work of producing them are wearing serene countenances and that satisfied look of the cat that ate the canary. Presumably this shipment will be immediately followed by another and larger one, and these by still others, for the mill is beginning to hit its stride, the solutions are about primed, and the members of the crew are acquainted with the habits of the machines.

OPENS A GOOD VEIN OF MOLYBDENITE ORE

E. W. Smith, formerly of Tonopah and Goldfield, has discovered a rich lead of molybdenite ore on his group of claims near Rock creek, on the westerly side of Mount Tom, about eight miles from Round Valley. The ore occurs with a hematite of iron carrying considerable values of gold. The specimens exhibited at the newspaper office ran very high in molybdenite. The main ledge is about five feet in width. Smith is doing development work on his property. —Bishop Herald.

BETTER FREIGHT RATES FOR SOUTHERN CAMPS

On September 20 reductions in freight rates on various classes of freight between Reno, Goldfield and Tonopah, averaging 40 per cent, will become effective pursuant to an order entered by the railroad commission of Nevada, dated September 2. The opinion and order of the commission, written by Commissioner Shaughnessy, sustains the contentions of the Reno merchants who petitioned for the reduction in every particular.

REPORTED STRIKE OF TUNGSTEN NEAR GOLCONDA

VALUABLE MINERAL DISCOVERY MADE IN GOLD RUN MINING DISTRICT.

One of the most important mineral discoveries ever made in Humboldt county, or the state of Nevada, was recently made by Robert Major in the Adelaide portion of the Gold Run Mining district, in this country. The discovery consists of hubnerite (manganese tungstate). An analysis made by Professor Young of the Mackay School of Mines, Nevada State university, gives a large percentage of tungstic acid.

Professor Young says: "Your mineral specimen consists of quartz and hubnerite—valuable for the tungsten. On the basis of 60 per cent tungstic acid the prices ranged during 1910 from \$6.50 to \$8.50 per unit or from \$400 to \$500 per ton."

Since the receipt of Professor Young's letters much quiet prospecting has been going on and some important discoveries have been made. It is more than likely that Gold Run district will soon be shipping this valuable ore. Much ore that was thought to be only zinc is now proved to be tungsten.

NEVADA HILLS MILL BEING TRIED OUT

MACHINERY ALL READY FOR TRIAL RUN NEXT WEEK. BUSINESS DOINGS.

The news from Fairview is that W. H. Webber has resigned as the general manager of the Nevada Hills and has been succeeded by E. A. Julien, formerly of Goldfield. Fred Siebert has been appointed consulting engineer of the property of the Nevada Hills.

The new mill is completed, the machinery, parts of which have already been tested, will be given a general try-out during the week, and in all probability the whole concern will be placed in commission early next week.

Mr. Webber is quoted as saying: "There has been some doubt expressed, I understand, to the effect that the Nevada Hills management will find it difficult to secure the desired amount of water for concentrating purposes. I want to put at rest any and all such fears. We have enough water assured for all purposes, and what our surface system may lack will be compensated for by that from the property. The minimum capacity of the mill will be 125 tons daily, and this is to be increased as deemed necessary by the company. "The property is in first-class condition throughout. We have developed the ore zone for 1500 feet along the trend, and we have the ore now to a depth of 570 feet, or to the eighth level."
